### PROFESSIONAL SUMMARY

JavaScript Developer with 2+ years of experience in modern web development using JavaScript and TypeScript. Skilled in React, Next.js, Astro, Svelte, and React Router DOM.

Proficient in CSS4, Tailwind CSS, Bootstrap, SCSS/SASS, and Styled Components. Solid back-end knowledge with Node.js, Express, MongoDB, PostgreSQL, NestJS, and Pug. Experienced in Bash scripting and Git-based workflows. Strong UI/UX background with Figma. Fluent in English (B2–C1), with a collaborative and remote-ready mindset.

### PROFESSIONAL EXPERIENCE

#### Front-End Designer/Developer

Krolls Telcomm / Grupo Fórmula (Remote, 2023 – Present)

- Designed UI proposals in Figma aligned with UX best practices.
- Developed user interfaces using React, Next.js, and Astro.
- Collaborated with multidisciplinary teams in a fully remote environment.

#### Freelance developer

- Delivered static landing pages using Astro for performance-focused websites.
- Built and customized WordPress websites using Gutenberg and Elementor.
- Developed custom WordPress themes and plugins tailored to client needs.

### ABOUT ME

I Love to contributing to collaborative projects and open-source initiatives. In my spare time, I actively participate in web development communities, lead hackathon teams, and share educational content through my blog and YouTube channel. I create free Astro templates and MIT-licensed projects to support and inspire new developers.

### IDIOMAS

English
